

HOW TO START A BUSINESS

Saturday, May 23rd, from 2 p.m.
Library and Archives Canada
Room# 156

Seminar led by Mr. Farsi

“Many engineers have the potential and capability to generate an Idea or to invent a product. But how many of them can take the Idea to the next level and commercialize it? how much money shall they invest? And many questions like this. Many of them even those who lived in Canada for many years do not know rules of the game. All they need is a coach to help them take their idea to the right place.”
